

Dear Families,

As another school year ends, I want to thank each of you for your many contributions to your local Catholic school.

We credit the collaborative efforts of our families, teachers and staff for our accomplishments and successes of the 2017-18 school year.

Every day in our classrooms, on our practice fields and throughout our communities, our 16 school systems in the Diocese of Sioux City demonstrate why a Catholic education is a great place to learn and grow.

We are proud of our academic rigor. The Diocese of Sioux City Catholic school students excelled on the Iowa Assessments again this school year. Tested in Math, Science and Reading, our students outperformed their state of Iowa peers in all three subject areas.

Our 100% graduation rate also is a strong indicator that our students are greatly benefitting from the nurturing environment of confidence, love and academic excellence we provide.

I hope you will spread the word and invite your friends and neighbors to visit their local Catholic school and feel the difference.

Have a happy and safe summer!

God's Blessings,

Patty Lansink

Patty Lansink
